

# COOLIDGE / FLORENCE AMATEUR RADIO

We are excited to announce that Amateur Radio (Ham Radio) meetings are being held at the **Viney Jones Library** in Florence, AZ.

Featuring an engaging session on the many facets of the hobby, connecting you with fellow amateur radio operators, sharing experiences, and expanding your knowledge in ham radio techniques and practices.

Experienced licensed operators are here to help you. Licensed or not, we are here to help you get started in the hobby! We also offer FCC license testing on site at the library.

Don't miss this opportunity to engage with like-minded individuals and enhance your ham radio skills. Discover ways to set up your station in an HOA, learn about antennas, experiment with digital modes using PC software connected to the radio.

Get outside, set up and operate your radio equipment. Take ham radio with you when you go hiking or camping. (You will never be out of contact with ham radio).

Technology that's as cool as you want to make it. Network and establish lasting friendships. Youngsters and older generations welcome and encouraged to participate! We're here to have fun, play radio, and stay "radio active".
